EXPLANATORY NOTES

1. THE UNIVERSITY

Beijing Normal-Hong Kong Baptist University (BNBU), jointly founded by **Beijing Normal University (BNU)** and **Hong Kong Baptist University (HKBU)** in 2005, is the first full-scale cooperation in higher education between the Mainland and Hong Kong. The University is located in Zhuhai, Guangdong Province, China. Its mission is to build a new model for liberal education in China and to nurture talented graduates with an international perspective. The University's degree programmes are fully accredited by HKBU and, upon completion of their studies, graduates will be granted HKBU degrees.

2. COURSE CODING SYSTEM

The course code consists of *Letters* and *Numbers*. The Letter Code indicates the course area. The Number Code indicates the level, and whether it is a year or a semester course.

The first digit of the number code signifies the level for which the course is intended. The second and third digits are assigned to courses in sequence number order. The fourth digit signifies whether the course is a year or a semester course (i.e., **0** and **3** for a semester course; **1** and **4** for the first part of a year course, usually offered in the first semester; **2** and **5** for the second part of a year course, usually offered in the second semester).

3. UNIT AND STUDY LOAD

The number of units assigned to a course is indicative of the contact time with a teacher and/or the study time associated with that course on a weekly basis over a period of one semester. In general, a single unit represents attendance once a week throughout the semester at a lecture lasting 50 minutes, or two 50-minute sessions per week of field studies or laboratory classes. The minimum study load for a full-time student is 15 units per semester (except for the final year students).

4. GRADING SYSTEM

4.1 Grading Scheme

Letter grades are used to indicate the results of assessment. The number of grade points gained by a student in a particular course corresponds to the letter grade.

Letter Grade	Academic Performance	Grade Point Per Unit ①	Grade Point Per Unit ②	Letter Grade	Academic Performance	Grade Point Per Unit
A	Excellent	4.00	4.00	I	Incomplete (temporary)	Not included in GPA calculation
A-		3.70	3.67	S	Satisfactory	Not included in GPA calculation
B+	Good	3.30	3.33	U	Unsatisfactory	Not included in GPA calculation
B		3.00	3.00	W	Withdrawn	Not included in GPA calculation
B-		2.70	2.67	YR	Year Grade (temporary) (applicable to the first semester component of a course and to courses that span over more than 1 year)	Not included in GPA calculation
C+	Satisfactory	2.30	2.33	NR	Not Yet Reported (temporary)	Not included in GPA calculation
C		2.00	2.00	PR	Project to be Resubmitted (temporary)	Not included in GPA calculation
C-		1.70	1.67			
D	Marginal Pass	1.00	1.00			
E	Conditional Pass (temporary) (applicable to the first semester component of a year course)	0.00	0.00			
F	Failure	0.00	0.00			

4.2 Grade Point Average (GPA)

The GPA is obtained by adding all the grade points gained and then dividing the result by the total number of units attempted. When calculated for a given semester, it is known as the semester GPA. When calculated cumulatively for all courses attempted, it is known as the cumulative GPA (cGPA).

For graduation, a student must pass all courses required by his/her programme of study and at the same time attain a minimum cGPA of 2.00 for all courses.

For students admitted before 2018-19, all courses repeated or taken for points are counted in the GPA calculation in the same way as new courses but the number of units gained will only be counted once for the same course. For students admitted to year one in or after 2018-19, only the highest grade of the repeated course will be included in the calculation of cGPA.

4.3 Course Remark Code

TR	Transfer units	#	Course transferred to new study programme
RP	Course repeated	⌗	Course not transferred to new study programme
EX	Course exempted	*	Unit(s) counted but not included in GPA calculation
EM	Course exempted (units make-up required)	SE	Grade obtained through supplementary examination (w.e.f. 2018-19)

5. CLASSIFICATION OF GRADUATION HONOURS

The various classifications are based on the cGPA. The cGPAs which generally coincide with the different honours classifications are as follows:

Honours Classification	cGPA Range
First Class Honours	3.40-4.00
Second Class (Division I) Honours	3.00-3.39
Second Class (Division II) Honours	2.50-2.99
Third Class Honours	2.20-2.49
Pass	2.00-2.19

In all cases of classification of degrees, the cGPAs cited above are indicative. The Senate reserves the right, upon the recommendation of the appropriate committees, to make exceptions in the application of these indicative grade point averages.

6. ACADEMIC HONOURS

6.1 The **President's Honour Roll** is awarded to students taking a minimum of 15 units counting towards grade point average in a semester with semester GPA of 3.50 or above and with no grade below C for the same semester (students with any record of demerits in the same semester are excluded).

6.2 The **Dean's List** is awarded to students taking a minimum of 15 units counting towards grade point average in a semester with semester GPA of 3.00-3.49 and with no grade below C for the same semester (students with any record of demerits in the same semester are excluded).

6.3 For students graduated before 2018, the **Scholastic Award** is awarded to those who have the highest cGPA in the graduating class of that programme and with cGPA no less than 3.20. For students graduated in or after 2018, the **Scholastic Award** is awarded to those having been awarded the First Class Honours and were the top two percent of graduates with the highest cGPA in the graduating class of that programme.

6.4 The Senate reserves the right, upon the recommendation of the appropriate committees, to make exceptions in the application of these criteria.

Notes: ① Applicable to students admitted before 2013-14
② Applicable to students admitted in or after 2013-14
